**Delaney Group Project Office Donates \$1,332 Worth of Toys**

Parksville, NY—The Delaney Group, Inc., the Prime Contractor working on the Route 17 By-Pass Project in Sullivan County recently began gathering for the local Toys for Tots Campaign.

Knowing that Sullivan County is one of the most deprived Counties in the State; the Delaney team wanted to help local kids. They partnered with the NYS Department of Transportation collecting bottles and cans and accepting cash donations from the more than 100 employees on site. Construction workers of all disciplines were eager to open their wallets and their hearts.

In all, \$1,332.00 worth of new, unwrapped toys were then purchased by the site team, and presented to the U.S. Marines.

“We were just delighted when the Delaney Group contacted us”, exclaimed U.S. Marine Corps Reserves Toys for Tots Coordinator James Meyers. “So far they have been one of our largest supporters at a time when our County is in dire need. With the downturn in the economy our donations are down as well. Theirs is an outstanding achievement.”

Delaney Office Manager and campaign leader Patty Lacey is proud of the entire project group. “The team we have assembled here are some of the most compassionate, considerate people you will ever meet”, she said. “We work hard and we care about the community we live and work in.”
